SUMMARY

Data-minded behavioral science expert with 10+ years of experience, based in Portland, OR. I thrive in roles that leverage my tendency to think about and plan processes, my understanding of applied statistics and data analysis, and my ability to communicate clearly at different levels of complexity.

EDUCATION

PhD, Duke University <i>Department of Psychology and Neuroscience</i>	Durham, NC 2020
MA, Duke University <i>Department of Psychology and Neuroscience</i>	Durham, NC 2016
BA, Reed College <i>Department of Psychology</i>	Portland, OR 2011

POSITIONS

Senior Program Manager <i>DrivenData</i>	February 2023 - present (remote)
<ul style="list-style-type: none">Use strong management, communication, process-creation skills to support data scientists in executing data science competitions and direct consulting engagements.	
Research Scientist <i>Center for Open Science</i>	October 2022 - January 2023 Charlottesville, VA (remote)
<ul style="list-style-type: none">Managed project team in conducting a large RCT with external stakeholdersManaged other staff and served a team leadership, mentor roleEstablished file management and data management systems and documentation for the research teamConsulted with Product team on an open source platform for scientists to upload research outputs, including data and code	
Data Scientist <i>Hunt Club</i>	April 2022 - September 2022 Chicago, IL (remote)
<ul style="list-style-type: none">Derived business insights from platform data.Played a leading role in standing up Looker and BigQuery, and establishing a data cleaning Airflow and fivetran pipeline for an analytics warehouseWorked with cross-functional teams to identify and resolve data errors that affected OKR and Product team reportingCreated data documentation and data standards for platform data and analytics warehouse	
NIH T32 Fellow and Postdoctoral Research Scientist <i>PI: John Curtin, University of Wisconsin - Madison</i>	June 2020 – March 2022 Madison, WI
<ul style="list-style-type: none">Led a project to use machine learning methods for predicting relapses among people recovering from substance use disorderEstablished a pipeline to store and process data from a digital health appManaged a team that included full-time staff and part-time doctoral researchers in the Computer Science and Psychology departmentsCollaborated with professors across campus, including in the Geography, Journalism, Computer Science, and Psychology departments	
Doctoral Research Scientist <i>PI: Rick Hoyle, Duke University</i>	August 2014 – May 2020 Durham, NC
<ul style="list-style-type: none">Conducted dozens of observational and experimental research studies to understand the behavioral and personality correlates of success in health goals like smoking cessation, weight lossMentored Duke University honors thesis projects and independent studiesInstructed Duke University undergraduate and doctoral students in courses including Applied Statistics for Psychology and Neuroscience, Research Methods, and Personality PsychologyEarned grants, honors, and fellowships from a variety of institutions including Duke University, the University of North Carolina at Chapel Hill, the Society for Personality and Social Psychology, the Association for Psychological Science, and the National Science Foundation	

Data and statistics: SQL, R, SAS, Python, HTCondor, Mplus, Airflow, BigQuery, Heroku
Reporting: Rmd, Quarto, Jupyter, Looker, Grow, Tableau
